14. ABSTRACT Who ensures that Marines can conduct the full gamut of military operations on land, in the air and on the sea? Geoscientists, of course! In this podcast, Marine Corps Master Sgt. Kari Hubler, a 17-year veteran of the Marine Corps' meteorology and oceanography community, explains how all forecasting is based on gathering data, analyzing the environment to determine what physical processes are affecting it, and then forecasting how those variables will change over time.
